

Claudio Porqueddu

Director of Research

E-mail: c.porqueddu@cspm.s.s.cnr.it; CNR PAGE
<http://www.cnr.it/people/claudioantonio.porqueddu>
Phone: +39 079 2841604
Fax: +39 079 2841699
Mobile phone: +39 3665766902
Address: **CNR-ISPAAM UOS di Sassari**, Traversa La Crucca 3, Loc. Baldica Sassari – Italy

Education and Professional Experience

- 2015** Member of Executive Committee of the European Grassland Federation.
- 2014** Member as expert of the EIP-AGRI Focus Group on “Profitability of permanent Grassland” funded by the European Commission.
- 2011-2015** Scientific responsible for the CNR-ISPAAM research group of the PF7-EU Project OPTIMA on the “Optimization of perennial grasses for biomass production in marginal areas”.
- 2012-2016** Scientific responsible for the CNR-ISPAAM research group of ERANET ARIMNET Project REFORMA on “Resilient, water-and energy efficient forage and feed crops for Mediterranean agricultural systems”.
- 2011** Responsible of the CNR – ISPAAM (Institute for Animal Production System in Mediterranean Environment) research unit based in Sassari.
- 2010** Head of the CNR-ISPAAM Research Task titled “Bioagronomic studies for multipurpose Mediterranean pasture and forage resources.”
- 2008** Member of the International Grassland Congress Continuing Committee as representant for Region 8 including the Mediterranean countries and Middle East.
- 2008** Associate Editor of the international Journal “Grass and Forage Science”
- 2007** Coordinator of the FAO-CIHEAM Inter-regional Cooperative Research and

Development Network on Mediterranean Forage Resources.

2002-2007 Member of the National board of Italian Society of Agronomy.

2001 Member of the Scientific Committee of the *Algerian Journal of Arid Areas*.

2001 Senior Researcher at CNR

1997 Researcher at CNR

1984 Degree on Agriculture Science – Sassari University.

Keywords

agronomy of pasture and forage crops, evaluation and multiplication of native legume and grass species for multi-functions, sustainability of farming systems, cover crops.
